DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 22 is rejected under 35 U.S.C. 102(e) as being anticipated by Kameyama et al (US 7,046,941).

Kameyama et al discloses a printer (Col. 1, line 13) comprising a first door (i.e. front cover 16, Fig. 20, Col. 8, line 19) to open a front side, a second door (i.e. side cover 93, Figs. 9, Col. 17, lines 24-27) to open a left side, a third door (i.e. side cover 93, Fig. 10, Col. 17, lines 24-27) to open a right side, and a fourth door (i.e. document pressing cover 83, Fig. 11, Col. 17, line 51) to open a top side of a printer.

Allowable Subject Matter

1. Claims 1-15, 17-21 and 28 are allowed.
2. Claims 23-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

3. Applicant's arguments filed 10/11/2006 have been fully considered but they are not persuasive. First the Applicant argues that Kameyama does not disclose that the cover 93 open the sides of the image forming apparatus. The Examiner found this not persuasive since at Col. 17, lines 24-27 and in Figs. 7-9, Kameyama clearly teaches that the cover members 93 are used to cover and to access (i.e. to open) to the sides of the image forming apparatus. Second, the Applicant argues that Kameyama's document pressing cover 83 is not a door to open a top side of the image forming apparatus. The Examiner again found this not persuasive since in Fig. 11, Kameyama clearly teaches that the member 83 is a door member and is used to open the top side of the image forming apparatus so that a document can be placed on a glass scanning plate 85 in which the top side having the glass scanning plate can be read as the top side and the member 83 is used to open to access to the glass plate.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
